SKILLS

- ❖ C/C++, Java, JavaScript, HTML, CSS, Tailwind CSS, React.js, UI-Design, Node.js, Express.js, MongoDB, DBMS, SQL, Firebase, Git/GitHub, Figma, DSA

ACADEMIC PROJECTS

- ❖ **InterVu.AI – Interview Platform**  |  (May'25)
InterVu.AI is a software application designed to assist individuals in preparing for job interviews, particularly focusing on technical interviews. It uses AI-powered simulations and speech recognition to create a realistic practice environment.
 - Platform that analyzes user responses on questions and generates **relevant questions**, providing **detailed feedback on user responses**.
- ❖ **EduMeet - E-learning Hub**  |  (Apr'24)
EduMeet is a full-featured course management platform where users can buy, watch, and review courses, as well as interact through a collaborative Q&A section, offers a powerful admin dashboard for managing courses, users, teams, analytics, and real-time notifications.
 - **Integrated Restful-APIs** for fetching and organizing content from platforms like YouTube, enabling **easy redirection** to original resources.
- ❖ **Code.Compiler Project**  |  (Jan'24)
*An interactive web-based **code editor** compiles HTML, CSS, and JavaScript in **real time**. Built using the **MERN stack (MongoDB, Express, React, Node.js)**.*
 - Instantly **Real-Time Compilation** of HTML, CSS, and JavaScript code, showing results live as you type. Provides options to **save, download, and share** the code.

POSITION OF RESPONSIBILITY

- ❖ **SV Tech Club | Lead – Web developer** (Feb'23 – Apr' '23)
Organized workshops, managed various tech-related activities & conducted sessions for 300+ college students.

ACHIEVEMENTS / HOBBIES

- **Designed and developed** a responsive **Portfolio** for a fellow developer  | 
- I write tech blogs on **HashNode** and have published an article on JavaScript closures 
- Solved 350+ Data Structures & Algorithms problems on **LeetCode**
